Allāh (سبحانه وتعالى) said:

وَمَا خَلَقَ الذَّكَرَ وَالْأُنثَىٰ

And (by) Him Who created the male (Ādam) and the female (Eve).^[1]

Imām al-Sa'dī (رحمه الله) commented:

Allāh created every type of animal whose existence He wanted to continue as male and female so that the category [of that animal] would remain, and not expire. He drove one of them to the other through the route of [sexual] desire and made each of them suited to the other, so blessed be Allāh, the best of creators.

Allāh (عز وجل) said:

وَمِنْ آيَاتِهِ أَنْ خَلَقَ لَكُمْ مِنْ أَنْفُسِكُمْ أَزْوَاجًا لِتَسْكُنُوا إِلَيْهَا وَجَعَلَ بَيْنَكُمْ مَوَدَّةً وَرَحْمَةً إِنَّ فِي ذَلِكَ لَآيَاتٍ لِقَوْمٍ يَتَفَكَّرُونَ

And of His signs is that He created for you from yourselves mates that you may find tranquillity in them; and He placed

between you affection and mercy. Indeed in that are signs for a people who give thought..^[2]

Imām al-Sa‘dī (رحمه الله) commented:

{**And of His signs**} indicating His mercy, concern with His servants, mighty wisdom and all-encompassing knowledge {**is that He created for you from yourselves mates**} that are suited to you and you are suited to them, you resemble them [in form, appearance], and they resemble you {**that you may find tranquillity in them; and He placed between you affection and mercy**} due to what He has made to result from marriage of the causes of love and mercy. Thus, via the spouse, enjoyment, pleasure and benefit is attained with the presence of offspring and their nurturing, and of finding solace in her [as a partner]. You will not find with anyone, overwhelmingly, the likes of what is to be found between two spouses of love and mercy.

This is what has been known by mankind for thousands of years, in all their variant creeds and civilisations, that men and women have differences—based on biological realities—which give them qualities and traits that compliment each other and draw them to each other, forming a pair, like a lock and key. The more pronounced the masculine and feminine qualities in each, the tighter the bonding. Through this relationship are offspring conceived, born, raised, matured and stabilised in a family setting with male and female role models. From here comes the notion of blood ties, relations, and various rights, including those that relate to inheritance and property.

However, this is detested by the Collectivists, Marxists and their likes who wish to enslave mankind by impoverishing them and stripping them of private property. To this end—as a means of abolishing the family—they actively promote sexual deviance and gender confusion. These (sexual deviance and gender confusion)

are not ends in themselves, but among the many means to a much greater end.

Coming to “**gender**”, it is an invention of the mid-20th century, from the ideas and writings of a man called **Dr. John Money** (described as a 'sexual pervert', 'child-abuser', 'pedophile') who separated biological properties from behaviours that distinguish males from females. He referred to the latter as gender identity, claiming it to be fluid and malleable. He is the one who brought the notions of “**gender identity**”, “**sexual orientation**” and “**gender role**”.

He tried to prove his ideas by experimenting on David Reimer, one of two twins. Though born a healthy baby boy, through an operation gone wrong to treat phimosis (via botched circumcision), his sexual organ was damaged. Seeking remedy for their son over the years, Reimer’s parents eventually came across Dr. Money who in turn had found his opportunity to put his own ideas to the test.

Using surgery, chemicals, counselling sessions and forced sexual activity (between the twins and with other boys at the age of six onwards) which he would oversee and observe, Money tried to transition Reimer to a female. However, this only led to a life of suffering, depression and trauma and Reimer eventually committed suicide later in his life, having already made past attempts. His twin brother, Brian had committed suicide two years earlier, and later, their father committed suicide being unable to overcome feelings of guilt.

Money’s ideas were proven wrong by his own cruel, perverse experiments. This is why trans-activists always keep quiet about the intellectual origins of their movement, "gender science", and the sinister personality behind them.

It should be pointed out that there are “intersex” people, those born without fully formed male or female organs, and their behavioural characteristics are rooted in their incompletely distinguished biology. There are Islamic rulings pertaining to such people and harming and oppressing them or making fun of them is not permissible.

However, this should not be confused with “gender ideology” in the West, which is an ideological weapon for indoctrination, sexual perversion, destruction of family, reshaping of society and confiscation of private property which is the goal behind many of these destructive ideologies masqueraded as science, progress, “inclusion” and “equality”.

What these people are doing has a share in the saying of Iblīs:

وَلَأُضِلَّهُمْ وَلَا مَنِّيَّهُمْ وَلَا مَرِيئَهُمْ فَلْيُبْتِئِكُنَّ إِذَٰنَ الْأَنْعَمِ وَلَا مَرِيئَهُمْ فَلْيَغْيِرُنَّ خَلْقَ اللَّهِ
وَمَنْ يَتَّخِذِ الشَّيْطَانَ وَلِيًّا مِّن دُونِ اللَّهِ فَقَدْ خَسِرَ خُسْرًا مُّبِينًا

“And I will mislead them, and I will arouse in them [sinful] desires, and I will command them so they will slit the ears of cattle, and I will command them so they will change the creation of Allāh.” And whoever takes Satan as an ally instead of Allāh has certainly sustained a clear loss. ^[3]
